BOARD INSULATION 15080\* PROCESS EQUIPMENT INSULATION 40 42 23\*\* MINERAL BOARD INSULATION 07 21 13\*\*

### **General Product Information:**

ROXUL® products are mineral wool fibre insulations made from basalt rock and slag. This combination results in a noncombustible product with a melting point of approximately 2150°F (1177°C), which gives it excellent fire resistance properties. ROXUL mineral wool is a water repellent yet vapour permeable material.

# **Description & Common Applications:**

The RHT® 120 product is a non-combustible, rigid mineral wool insulation board that is water repellent and designed for high temperature applications where durability and compressive resistance are required. Common application areas for the RHT series of board insulation include storage tank insulations, drying/oven equipment, petro-chemical and power generating equipment protection where high temperature, fire resistance, and moisture resistance are concerns.
